

# Field Service Engineer

Bexley

A vacancy has arisen for a Field Service Engineer based at our Bexley Service Centre. The overall purpose of the role is to carry out servicing and repair to a range of chassis and vehicle mounted municipal equipment at both customer premises and within Company workshops.

Key tasks include:

- Repairs & servicing to HGVs and associated mounted municipal equipment
- Job management
- Quality & customer satisfaction
- Health & Safety

The successful candidate will have gained experience in the maintenance and repair of Refuse Collection vehicles or similar equipment in a workshop environment, or as an onsite engineer. It is essential that they have good diagnostic skills, a good understanding of electronics and hydraulics and the ability to read wiring diagrams. Excellent communication, IT and administration skills are also essential.

Candidates will have a current PLG licence and year 3 City & Guilds or equivalent. A current HGV licence is desirable but not essential.

The ideal candidate will be professional and self-motivated with a good customer service ethos. They will have the ability to solve problems and an awareness of Health & Safety.

The role will require a flexible approach to hours as overtime may be offered at short notice. Applicants must be willing to travel.

If you believe you have the experience and knowledge necessary to fulfil this role, please send your written application supported by your qualifications and CV to:
