

Workshop Engineer Manchester

A vacancy has arisen for a Workshop Engineer within the Service department at our Manchester Service Centre. The overall purposes of this role are to carry out specialist vehicle & HGV repair work including MOT preparation to DVSA Standards and to ensure output is achieved to time and quality in the most effective way.

Experience in a similar role with a sound knowledge of maintenance and repair of RCV's is essential for this position. Applicants should have a formal qualification with experience in electronics and hydraulics and hold a valid PLG license. The successful candidate will have excellent diagnostic skills, with the ability to read wiring diagrams and have basic IT skills. A HGV license is also desirable.

A self-motivated approach is required for this role, the ideal candidate will have good customer service ethos and represent Dennis Eagle in a positive and proactive manner.

The role will require a flexible approach to hours as overtime and travel may be required dependent on the job. The role will include travel as required.

If you believe you have the experience, skills and qualifications necessary to fulfil this role please send your emailed application supported by your qualifications and CV to Georgina Turner Georgina.Turner@dennis-eagle.co.uk

A job and person profile is available on request.

Closing Date: Friday the 22nd December

Dennis Eagle Ltd is an equal opportunities employer
