Subject:

Elite 6 Drive Axle Hub Nut Change in Size

Please note there has been a design change on Elite 6 drive axle hubs and bearings which has recently come into play.

This design change has led to the hub nut going up in size from 105mm to 110mm across the flats.

The new socket is available from Dennis Eagle Parts, if you require the new socket then please call 01926 458555 and quote part number DEP105471.
